Groundhog Day

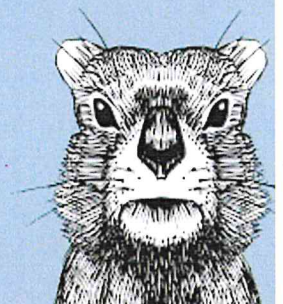

The legend has it, when a groundhog comes out of his den on February 2nd, he can predict when spring is going to arrive! If it is cloudy, then spring comes early. If it is sunny, and he sees his shadow, then winter will last 6 more weeks. Do you believe it?

If the groundhog knew the price of meat these days, he'd never stick his head up out of the ground.

I'm looking for a Punxsutawney Phil type of work schedule.

What You Need to Know About Presidents' Day

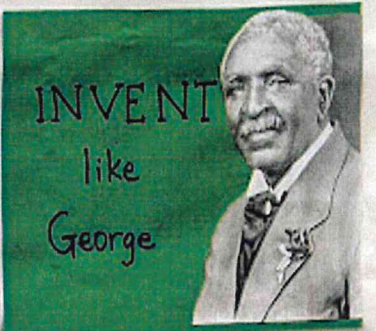

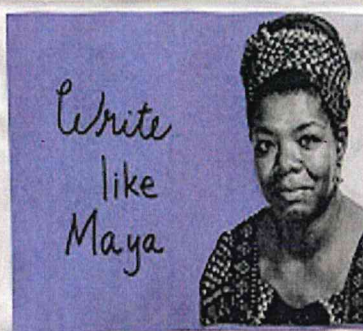

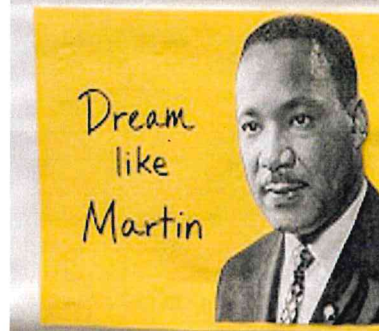

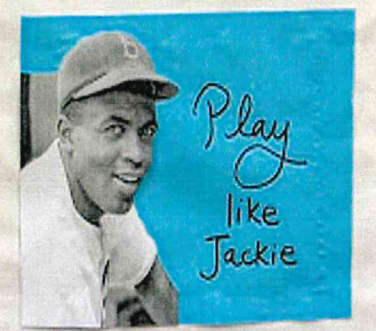

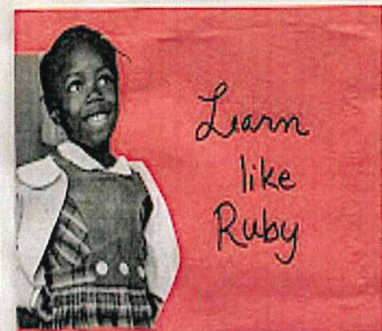

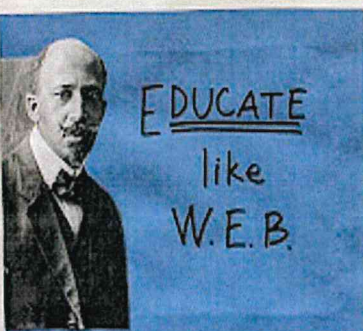

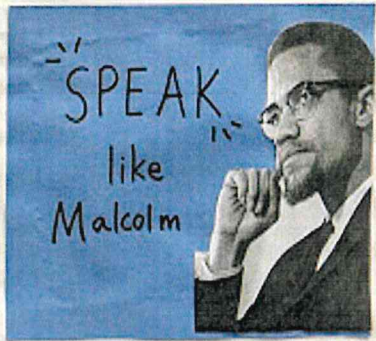

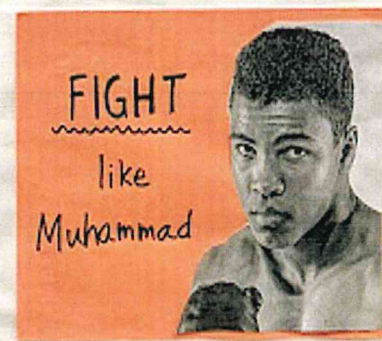

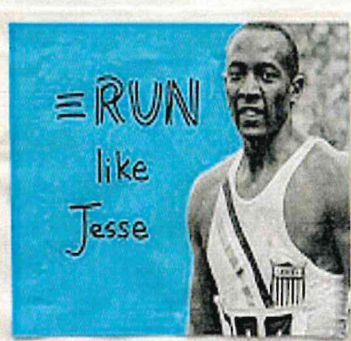

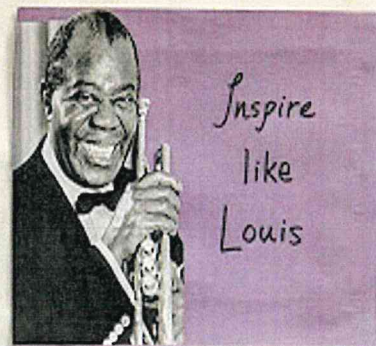

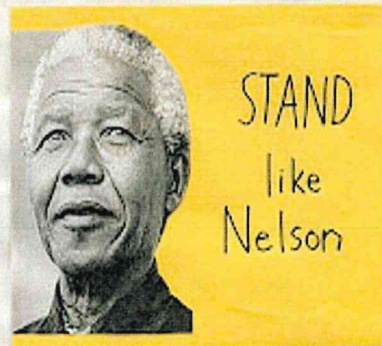

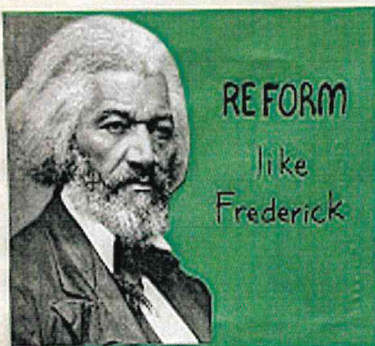

Celebrate on: Third Monday in February

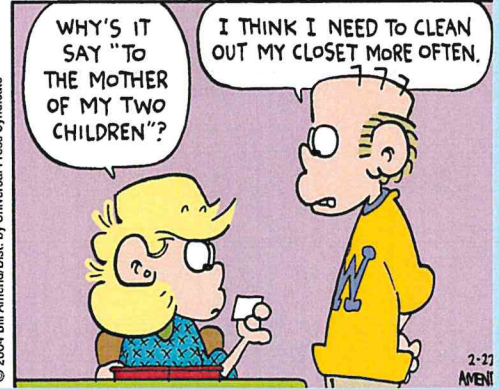

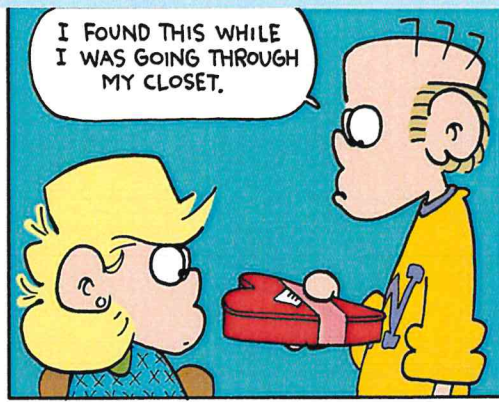

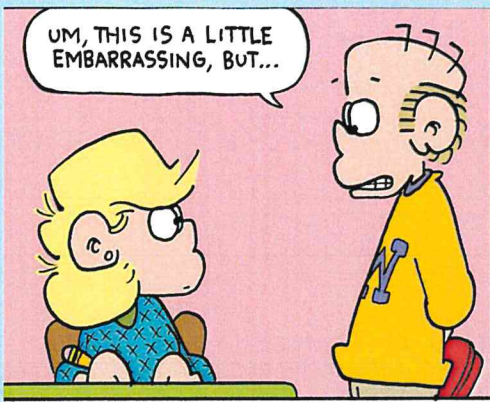

Until the mid-1970s, the February 22 birthday of George Washington, hero of the Revolutionary War and first president of the United States, was a national holiday. In addition, the February 12 birthday of Abraham Lincoln, the president during the Civil War (1861-1865), was a holiday in most states.

In the 1970s, Congress declared that in order to honor all past presidents of the United States, a single holiday, to be called Presidents' Day, would be observed on the third Monday in February. In many states, however, the holiday continues to be known as George Washington's birthday.
